EDUCATION

BS in Computer Science
NFC Institute of Engineering
and Technology,
Multan

Oct 2019 - Present

Curriculum:

- Programming Fundamentals
- Object Oriented Programming
- Data Structures & Algorithm
- Database Management System
- Web Development

INTERESTS/HOBBIES

- Passionate about **learning new technologies** and **staying up-to-date** with industry.
- Enjoys participating in **programming competitions** and **solving complex technical challenges**.
- Interested in exploring emerging technologies such as **blockchain, AI, or IoT**.
- Traveling, exploring new places excites me.

Anees Malik

Software Engineer /
Web Developer

WORK EXPERIENCE

Jr. Full Stack Developer

Nov 2022 - May 2023

Grace Automation & Engineering Services | Multan

- Successfully transferred outdated jQuery-based websites to modern **React applications**.
- Developed and deployed 7 different React apps, each serving different administration operation controls, to manage various aspects of the application.
- Created a robust **backend** using **PHP** and **MySQL** database, ensuring seamless communication between the front-end and back-end.
- Leveraged MUI (**Material UI**) as the primary component library to design and develop responsive, visually appealing user interfaces.
- Implemented a comprehensive **authentication** system to ensure secure access to the application.
- Designed and integrated data visualization tools(**ApexChart** etc) that provide **real-time data** analysis, allowing users to **export charts, tables**, and other data in various formats like PDF, PNG, CSV, etc.
- Implemented advanced features like **autocomplete** and **animations** to enhance user experience and improve overall functionality.
- Deployed the website on a DigitalOcean **Ubuntu server** using **LAMP Stack (Linux, Apache, MySQL, PHP)**, ensuring high uptime and performance.

DSA Lead

Competitive Programming Club | NFC-IET

- Led a team of programmers in weekly competitive programming sessions and competitions.
- Developed and delivered training sessions on advanced data structures and algorithms,.

SKILLS

Programming Languages:

- JavaScript
- Python3
- PHP
- HTML
- CSS
- Git
- C
- C++
- Java
- DSA(C++, Java, Python)

Frameworks/Library:

- React JS
- Node JS
- Express JS

Familiar with:

- Next JS
- Linux
- Tailwind CSS
- Material UI

Databases:

- SQL
- MongoDB

Soft Skills:

- Problem Solving
- Adaptability
- Fast Lerner
- Teamwork
- Time Management
