REFERENCE_

Can be provided on demand

CURRENTLY

These days, I am enhancing my web-related skills, especially in HTML, CSS, Javascript, MYSQL, and MERN/MEAN. In addition, I have also taken up two courses from Azure (the Fundamentals course and the AI course) and have also taken up a game development and programming internship. Other than that, I am working on my own projects, doing social work, and learning about working on Linux. Finally, I recently got the certification Certified in Cybersecurity, from the ISC2 and am currently a member of this esteemed global organization.
