Faisalabad

INTERMEDIATE

Women College Lahore Intermediate - Pre-engineering

2016 - 2018

Lahore

PERSONAL PROJECTS

Addily - Final Year Project.

- Addily is a platform with the objective to provide ease to social media marketers. As of now, social media usage is increasing day by day and numerous platforms are getting e.g., TikTok. A marketer manages multiple entities. Each entity has multiple accounts. Managing adverts and creating reports every day is tedious and includes a lot of manual work. So, Addily automates that process, provides a single platform to advertise and engage with advert responses through its inbox.
- Built using Python, HTML, SQL

LABORATORY INFORMATION MANAGEMENT SYSTEM (LIMS)

- A web based app useful for laboratory information COVID'19 Management System Reception and login of a sample and associated. Date wise search of test records. Patient Record (add, edit, delete).
- Built using SQL
