- 📍 Lahore, pakistan
- 📞 sajjad-ahmed-993662268

### Hard Skill

---

- C++
- C
- HTML
- Javascript
- PHP
- OOP
- SQL
- Data structures

### Soft Skill

---

- Observation
- Decision making
- Communication
- Multi-tasking

### Education Background

---

- FAST-NUCES  
BS-CS  
2021-2025
- KIMS  
A-Levels  
2018-2020
- Crescent Model Higher Secondary School  
O-Levels  
2106-2018

### About Me

---

Passionate computer science student skilled in coding, problem-solving, and eager to make a meaningful impact in the digital realm. Constantly up-to-date with the latest advancements in technology

### Projects

---

- 1024  
C++ programming project focusing on number 1024, covering variables, data types, loops, conditionals, and basic I/O.
- Catch it (assembly language)  
Assembly language project: "Catch It" game with falling objects, movable basket, scoring, bomb detection, and 90-second time limit.
- Car Parking System  
Digital logic design project using gates, multiplexers, decoders for entry/exit control, car detection, space allocation, and status display.
- Ride Management System  
Ride management system with classes, inheritance, and polymorphism to handle ride requests, driver availability, and user data efficiently.
- Movies Database Website (PHP)  
Movie website database project utilizing MSSQL and PHP to store and manage movie data, user information, ratings, and reviews.
- Programming
- Web Development
- Algorithm
- Data structures
- Game Development
- Mobile App Development
