PROJECTS

Online Auction System (MERN)

- Our FYP project. An online auction project that holds online auctions of various products on a website and serves sellers and bidders accordingly. The system is designed to allow users to set up their products for auctions and bidders to register and bid for various products available for bidding.

Online Shopping System (Java)

- A web-based term project. in which basic functionalities like add product, delete product and payment process, etc. were added.

SOLITAIRE CONSOLE GAME (C++)

- 2D Solitaire Game produced using OOP in C++ by Using Concepts of Composition, Association and Polymorphism.
