VISION

A design vision exists to provide top-level inspiration and guidance for the design team and serves several purposes, including:

- To support the broader business group or company mission vision and strategy.
- To inspire.
- To create a means of benchmarking works so progress can be qualified and in some cases quantified in its alignment with the vision and progression towards strategic goals.
- To produce better work which adds value for customers, generates a strategic market advantage for your company, supports and builds brand value and generates year on year profits.

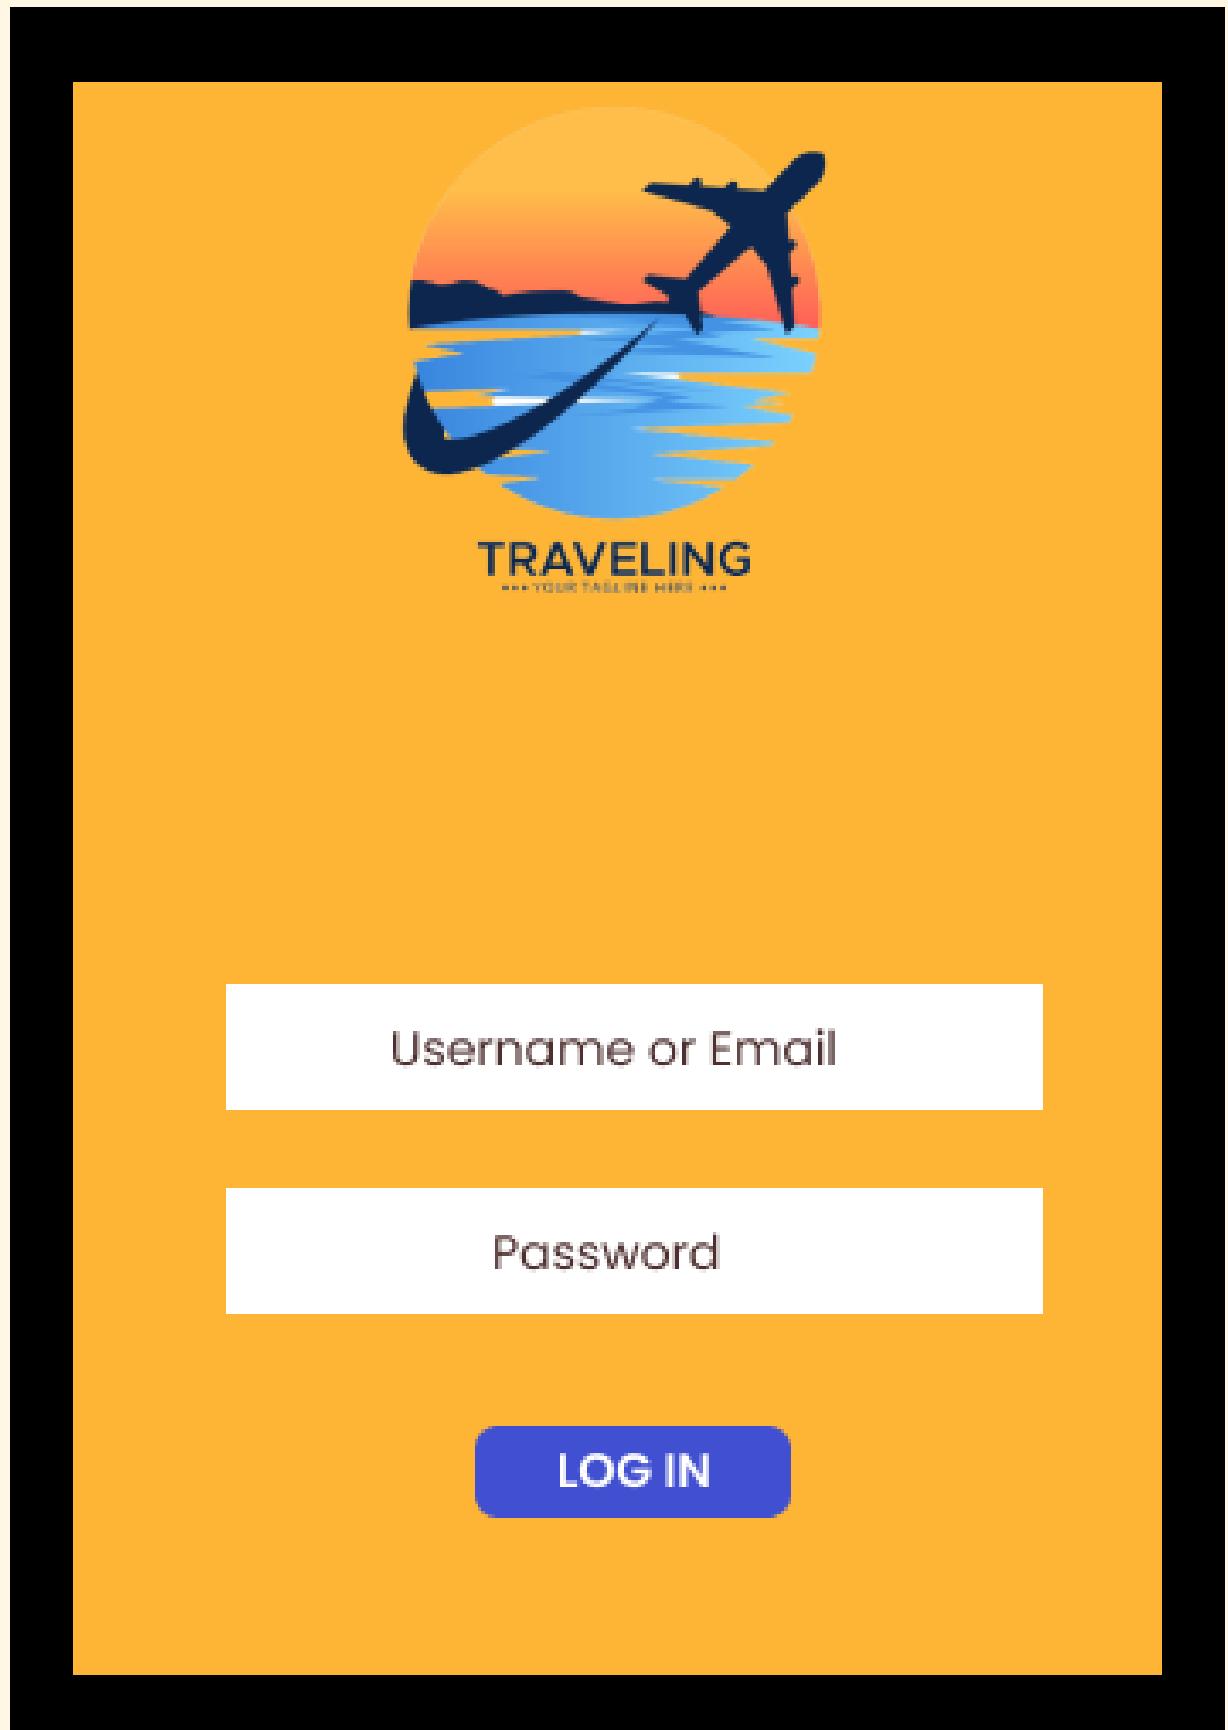

GRAPHIC DESIGNING

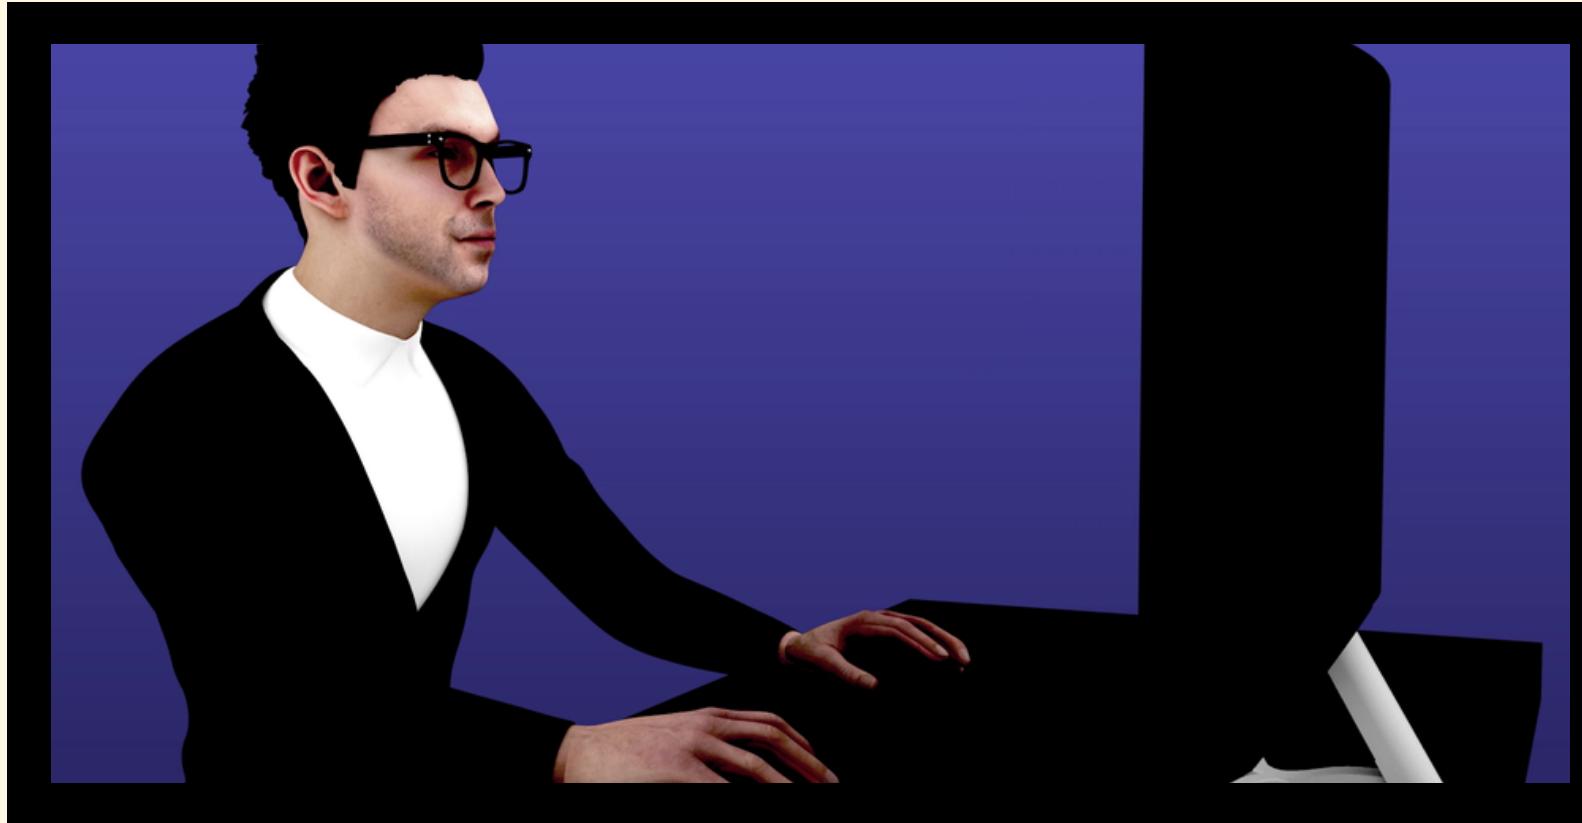

Hello, my name is Umar Ali. I am a professional graphic designer with over 1 years of experience. I have much experience in designing Business cards, Letterheads, Logos, and Flyers. I use Adobe Illustrator and Adobe Photoshop to design the graphics for you. Not only that, but I will provide high-quality work that will happy all my clients. I also provide AI or PSD files. I will complete many projects with customer satisfaction. Furthermore,. If you have work related to my skills, then contact me.

UI/UX DESIGN

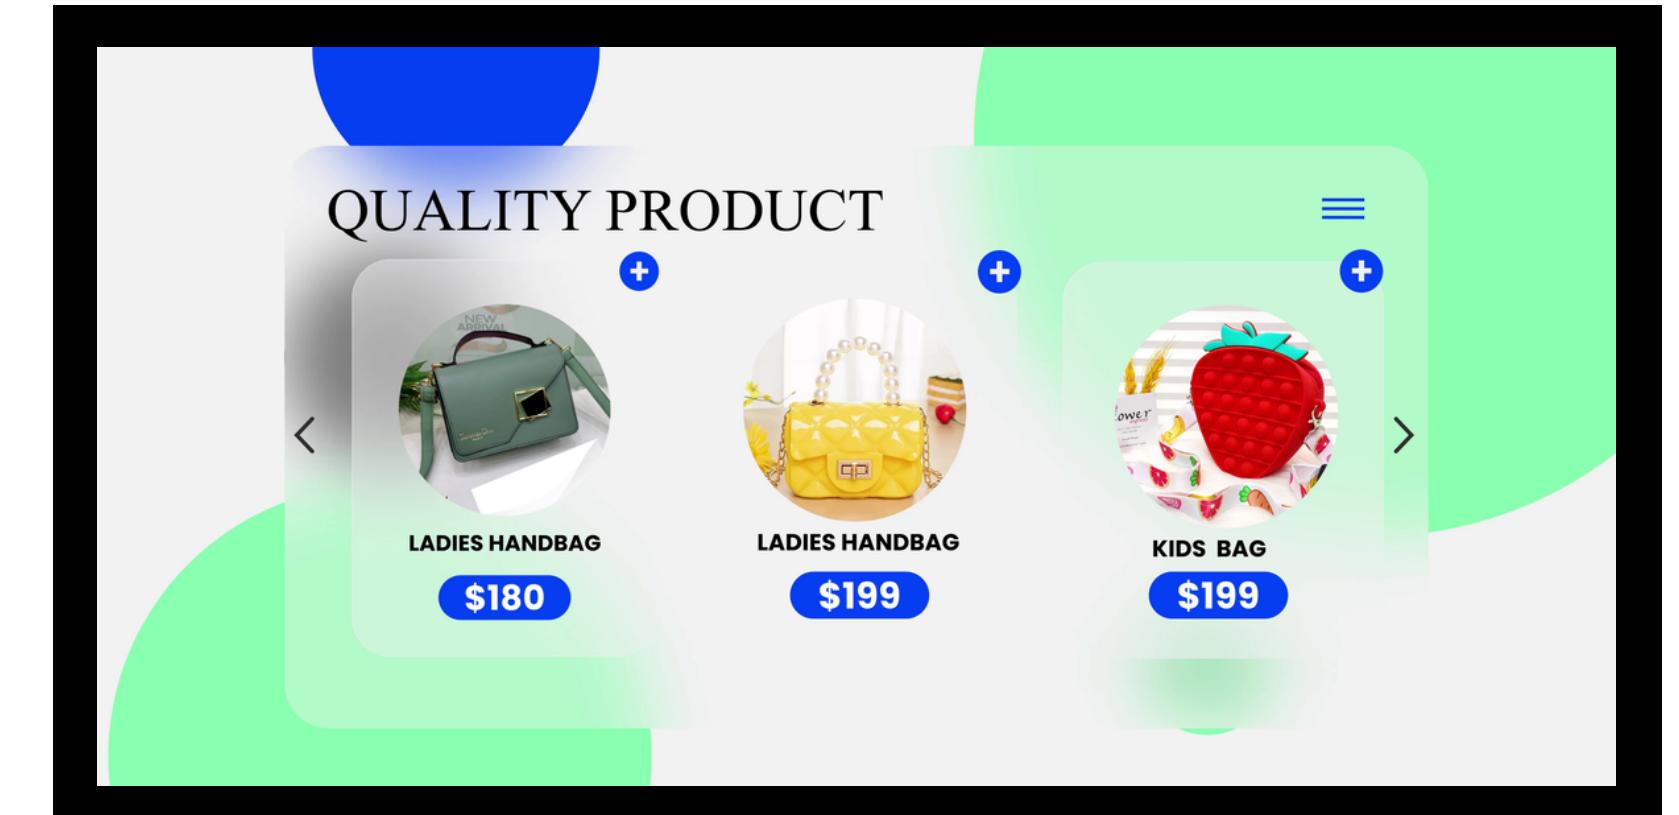

UI UX designers create the user interface for an app, website, or other interactive media. Their work includes collaborating with product managers and engineers to gather requirements from users before designing ideas that can be communicated using storyboards. They also process flows or sitemaps.

VIDEO EDITING

As a film/video editor, you'll manage material such as camera footage, dialogue, sound effects, graphics and special effects to produce a final film or video product. This is a key role in the post-production process and your skills can determine the quality and delivery of the finished result.
