

Waqar Kashif

4+ Years of experience

A team player software engineer with a can-do attitude, phenomenal time management skills, and a strong user and client-centric approach. I have developed several Web, APIs, and robust applications using JS frameworks and Python Frameworks.

Availability	Preferred Environment	The most amazing...
Full-time	WordPress, Laravel, Angular, React, Redux, Kendo UI, Material UI, NodeJS, Django, SASS, Express JS, Mongo DB, MySQL, PostgreSQL, AWS, Bash, Git, Docker Languages: Typescript, Python, JavaScript	Ahead of time deliveries on most critical and crunch projects.

Project Details

Donor Management System

- Implement tracking codes and scripts to track user interactions and campaign performance accurately.
- Integrate Keap and Karta to manage donor relationships and automate fundraising campaigns.
- Allows for donor segmentation and personalized communication, while Karta streamlines donation tracking and email automation.

Technologies:

PHP, Laravel, WordPress, Keap, Karta

Qtrac

- Cloud-based virtual queuing and appointment scheduling platform
- Multi-channel, personalized engagement, and customer insights
- Appointment scheduling system with enhanced configuration
- Desktop, Kiosk, and mobile view configuration.
- Insights and graphical representation of data

Technologies:

Angular, Node JS, Cosmos DB, Docker, SASS, Typescript

Comverse

- Multi-vendor e-commerce marketplace, having multi-location and multi logistics
- Multi-lingual storefront and multiple payment gateway integrations
- Enhanced reporting dashboard, etc

Technologies:

Angular, React JS, Django, MySQL, Node JS, Express JS, Redux

Synergist

- Shopify store advertisement controller
- Showing advertisement on stores, who have installed the application
- Advertisement controlled through an admin panel dashboard

Technologies:

Angular, Django, MySQL, Shopify, AWS

Kees

- Multi-vendor e-commerce marketplace
- Multi-lingual storefront and multiple payment gateway integrations
- Enhanced reporting dashboard
- Custom discount module

Technologies:

React, Django, MySQL, Express JS, Material UI

Destinations

- Manage mobile application for travelers
- Custom tour plan maker
- Integration with google API's and map

Technologies:

Angular, Django, MySQL, Google Maps, Rabbit

Skills

Languages

PHP, LARAVEL, JAVASCRIPT, TYPESCRIPT, PYTHON, HTML, CSS

Frameworks/Libraries/APIs

WordPress, Laravel, Angular, React, Redux, Kendo UI, SASS, Material UI, Express JS, NodeJS, Django, Mongo DB, MySQL, PostgreSQL, AWS, Bash, Git, Docker Languages: Typescript, Python, JavaScript

Tools

Microsoft Visual Studio Code, Eclipse, PyCharm

Paradigms

Model View Controller (MVC), Model View View-model (MVVM), Object-oriented Programming (OOP), Concurrent Programming, MEAN/MERN Stack.
