

# RABEEA KHALID

SQA INTERN

## EDUCATION

---

NATIONAL UNIVERSITY OF COMPUTER & EMERGING SCIENCES (FAST-NU), LAHORE

*Bachelors of Computer Science*

2017-2022

Electives Studied: Advanced Programming, Web Programming, Data Science, Information Retrieval, Software Testing, Fundamentals of Computer Vision

KIPS INTERMEDIATE GIRLS COLLEGE, LAHORE

*FSC. Pre-Engineering (Additional Maths)*

2014-2017

KIPS HIGH SCHOOL FOR GIRLS, LAHORE

*Matric*

2012-2014

## WORK EXPERIENCE

---

**Associate Software Engineer**

*Virtual Force Inc.*

March 2022 - Dec 2022

- Development of web based applications using React and NextJS
- Worked with backend developers to integrate UI components with APIs and databases
- Worked on RESTful APIs and backend frameworks like NodeJS as it was part of my MERN Stack training
- Worked in an Agile Work Environment and hence adapted to the continuous integration/delivery methodology

## PROJECTS

---

**Naylam (NextJS / ReactJS)**

- Uber-like app for users with some premium features. Admins can view the lists of all the users, drivers, customers, contractors, bookings details, travel-services details. Admin can create and update them as well
- Worked on the frontend side of the app. Mainly worked on the API integration with UI components
- Used the Redux-Toolkit for the state-management of entire project

**Kualitee (NodeJS)**

- Test management tool whose working is almost similar to JIRA
- Worked on the backend side of the app. Changed some of its modules from PHP to NodeJS to improve its performance and response time

**Blog-App (MERN Stack)**

- For users to sign-up, sign-in and create, edit, delete their own blogs and view others blogs using pagination

**Quran Search App-II (Android App)**

- FYP extended an already developed FYP, added Image Search, improved accuracy of Voice Search, added Dictionary and Translation modules

**Chess Game (C++)**

- Console based project, developed in C++ using concepts of OOP
