

Muhammad Muqtasid

Lahore-Punjab | +923358797875 | mmuqtasid22@gmail.com |

EDUCATION

Allama Iqbal Open University
BS Computer Science

Islamabad -Pakistan
Graduation Date: Aug 2022

WORK EXPERIENCE

Crocuszone Technology **Lahore-Punjab**
React Js Interns *Sep 2022 - Apr 2023*

- Developed interactive user interfaces and web applications using React.js, HTML, CSS, and JavaScript.
- Utilized state management libraries such as Redux manage complex application states and data flow.
- Implemented routing using React Router to create a seamless and intuitive navigation experience within the application.
- Collaborated with the development team to design and implement React components for a variety of features and functionalities.
- Learn how to integrate the different components of the build RESTful APIs.
- Implement CRUD operations (Create, Read, Update, Delete) and data handling using MongoDB

Fiveium Technology **Rawalpindi-Punjab**
Frontend Developer *Mar 2022 - Sep 2022*

- Work as Frontend developer
- Develop 3+ Client Side Project Using HTML CSS , Bootstrap 4 & 5 and Javascript .
- Create 5+ Websites Using Wordpress CMS Software

SKILLS & INTERESTS

Skills: HTML5 | CSS3 | Javascript | Bootstrap | Tailwind css | React Js | Node Js | Redux | Next Js | Expresss Js |
MongoDB | PostgreSQL | Git | Git lab

Interests: Programming | DSA

FINAL YEAR PROJECT

Online Books Sale Purchase and Exchange **AIOU - Islamabad**
BS CS *Mar 2022 - Aug 2023*

- Collaborate with the project team to understand the requirements and objectives of the web-based application.
- Develop responsive and interactive front-end components using HTML, CSS, and JavaScript frameworks.
- Ensure cross-browser compatibility and responsiveness of the application across different devices and screen sizes.
- Optimize the performance of the front-end by implementing techniques such as lazy loading, code splitting, and caching.
- Conduct usability testing and gather user feedback to identify areas of improvement and iterate on the design.
- Collaborate with back-end developers to ensure seamless integration and functionality of the application.

CERTIFICATION

CodeNinja Inc. **Lahore -Punjab**
MERN Stack *Oct 2022 - Jan 2023*

- Learn the fundamentals of MongoDB, Express.js, React.js, and Node.js.
- Understand the concepts of front-end and back-end development using the MERN stack.
- Learn how to integrate the different components of the MERN stack and build RESTful APIs.
- Implement CRUD operations (Create, Read, Update, Delete) and data handling using MongoDB.
- Develop user interfaces using React.js and implement client-side routing for seamless navigation.
- Gain familiarity with version control systems, such as Git, and collaborate on group projects.

Kamyab Jawan Program**Mobile App Development and Web Graphics****Rawalpindi-Punjab***Mar 2022 - Aug 2023*

- Introduction to programming languages and frameworks for mobile app development (e.g., Flutter , Android Studio , Java Kotlin).
- Building basic mobile app functionalities such as navigation, data input, and data retrieval.
- Understanding mobile app performance optimization and testing techniques.

Punjab Skill Development**Rawalpindi-Punjab****Web Development and Design***Mar 2019 - Oct 2019*

- Develop responsive website layouts using HTML, CSS, and JavaScript to ensure optimal display across various devices and screen sizes..
- Implement front-end interactivity and dynamic elements using JavaScript frameworks and libraries (e.g., React.js) to enhance user engagement and functionality.
- Collaborate with back-end developers to integrate front-end designs with server-side technologies (Node.js) and databases.
-
