SQA Interne

Autosoft dynamic (pvt.)Limit

Aug 2021 - Oct 2021

EXPERIENCE

Software quality Assurance engineer

Autosoft dynamic (pvt.)Limit

2021 to Present

A software quality assurance (QA) engineer monitors every phase of the development process to ensure that the design and software adhere to company standards. Software delays are costly for a company, so it's vital for releases to meet target dates and stay within budget.

Responsibilities:

- Design and execute systems to check for issues
- Document test cases
- TRN Design
- Bug Report
- Perform and document risk analysis
- Record test progress and results
- Create test plans
- Discover bugs within software
- Drive innovation and streamline overall testing processes
- Identify, isolate, and track bugs throughout testing
- Identify any potential problems that users might encounter
- Perform manual testing
