Model town, Link road Lahore (Pakistan).

PROFILE

Experienced SQA Engineer with demonstrated history of working in Software Industry having skills in Manual, API and DB Testing, Test Cases, Defect bug tracking, SDLC, STLC, Agile and different QA methodologies.

EXPERIENCE

SQA Engineer

Zong cmpak HQ, Islamabad (Dec' 2021 - Present)

Php Developer

Excellence Delivered (exd), Lahore (Feb'2021 – Nov' 2021)

PROJECTS

Zong cmpak HQ, (SQA Engineer) GIS [Java, Rest Api's, javascript]

In Gis we represent site information in geographical basis for user to make it easier for analysis, collect information from multiple sources and provide centralized data management.

Excellence Delivered exd, (Php Developer) HRMS [PHP,Bootstrap,jquery.ajax]

This is a web based project. It has four types of logins i.e CEO login, HR login, User login and Manager login. There is a hiring module, Expense claim & travel, leave and Objectives module, Training and recruitment etc. Different users login and access the functionality they want by getting approval from CEO user after sending request.

AR Homes [FYP Development]

AR homes is an android application which helps user to find homes. User can search Homes, Apartments for sale and rent with up to date information. This Application is based on Augmented Reality. User will mark their area on map and as a result they will be provided with all the information of apartments according to their range. User can also chat with owner.

Student Management System [PHP,JS,Bootstrap]

This is a web based project. There's only admin login as Admin manages the Students record. After login Admin can Add Subject, View Subjects, Courses, Sessions and can Register.
