Experience Less than 1 Year

Company	Designation	Duration	
BlocTech Solution	MERN Stack Developer	Jan 2023 - Apr 2023	3 months
Luminogics	MERN Stack Bootcamp	Oct 2022 - Jan 2023	3 months
Shaheen model high school	Computer Operator / Data Entry Operator	Aug 2021 - Mar 2022	7 months

Work History

BlocTech Solution	Jan 2023 - Apr 2023 (3 months)
--------------------------	---------------------------------------

MERN Stack Developer	Faisalabad, Pakistan
-----------------------------	-----------------------------

As a MERN stack developer at BlocTech Solution from 02/2023 to 04/2023, I developed full-stack web applications using MongoDB, Express, React, and Node.js technologies. I gained proficiency in JavaScript, Node.js, React, and MongoDB, and learned to collaborate effectively with a team to develop high-quality applications.

Luminogics	Oct 2022 - Jan 2023 (3 months)
-------------------	---------------------------------------

MERN Stack Bootcamp	Lahore, Pakistan
----------------------------	-------------------------

In this bootcamp, I trained myself as a MERN stack developer. I learned React.js, Node.js, Express.js, and MongoDB.

Shaheen model high school	Aug 2021 - Mar 2022 (7 months)
----------------------------------	---------------------------------------

Computer Operator / Data Entry Operator	Jhang, Pakistan
--	------------------------

As a computer operator and data entry specialist at Shaheen Model High School from 08/2021 to 03/2022, I maintained and operated computer systems, accurately entered data into the system, and ensured system security. My skills include computer operations, data entry, troubleshooting,

and report generation

Projects

Music player

Mar 2023 - Apr 2023 (1 month)

Tools: React js , Mui,

I created a music player app using React that lets users play and browse their music files. The app has a clean and easy-to-use design, with features like playlists, volume controls, and song shuffling. Users can also search for specific songs and the app is designed to work quickly and smoothly. Overall, my React music player app is a simple, user-friendly way for people to listen to their music on the web. I have completed it 3 days.

Medical Website

Mar 2023 - Apr 2023 (1 month)

<https://superb-beignet-134fe6.netlify.app/>

Tools: React js , Mui,

This is only front end project, in this we use React js and MUI to make full responsive website.

Point of Sale

Nov 2022 - Dec 2022 (1 month)

Tools: React js, Bootstrap, Node js, Monogo DB

First of all, For Front End I have to used advanced javascript library React JS and also used React Bootstrap. For Back End I have to used advanced javascript framework Node JS. In this project I have also used Database Mongo DB. I have written all my code on visual studio code.
