Ali Muhammad Afzal

Software Engineer at 10Pearls
Lahore, Punjab, Pakistan

Summary

Python Developer || Django Developer || REST || Jinja
I have been learning and working in different technologies of Python
since my graduation and now I'm software engineer with hands of
experience in Python, it's various libraries, Web Scrapping and Web
Development in Django.
I'm a Python Enthusiast and have always been learning new
techniques and tools. As a fast learner i have learned many new
technologies in a short period of time and willing to work with them in
future. New technologies always attract me as a learner and young
developer.
