## OBJECTIVE

To secure an internship position in Data Science, Data Analytics, AI/ML.

## HIGHLIGHTS OF QUALIFICATION

- Finished junior year of bachelor's in computer science at the Ghulam Ishaq Khan Institute of Engineering Sciences and Technology (GIKI).
- Gained experience and a sound understanding of C++ concepts, including its Procedural and Object-oriented features of programming through working on various academic projects.
- Currently acquiring knowledge on Data Science as well as Full Stack Web and Mobile development through university courses and various online platforms.
- Developed proficiency with data structures, algorithms, and software design through university courses, online courses and term projects.
- Have proficiency in C, Operating System and System's Programming through Linux Programming.
- Acquired leadership and teamwork skills through my roles as the Event Head at Microsoft Club GIKI; Publications, Social Media, Registrations and Recruitment Head at the Institution of Engineering and Technology (IET) On Campus GIKI; and as the Publications Head at Team Technobolt. Using these avenues, I organized various events, recruitment drives and professional development sessions.
- Currently hold the post of Events & Logistics Coordinator at Microsoft Club GIKI.
- Was in charge of the front-end web development in a semester project to tackle the manual and conventional system in place at the institute by providing an online alternative.
