Profile

Hi, My name is Usman Mahmood. I'm currently pursuing a Bachelor's Degree in Software Engineering. I enjoy challenges, problem-solving, and developing my leadership skills. I'm deeply passionate about learning and challenging myself to push beyond my boundaries. The more I learn, the more I find myself wanting to learn more. My goal is to use my determination and ingenuity to make a difference in the world. Feel free to contact me, or join my network. I love networking and meeting new people.

ACADEMIC EXPERIENCES/PROJECTS

React Native Little Lemon App ⊡
The Little Lemon App is a comprehensive food ordering and personalization platform designed for the Little Lemon restaurant. This project focuses on building a mobile application that provides a user-friendly interface for customers to order food, customize their preferences, and enhance their overall dining experience. The app encompasses essential features such as menu browsing, user onboarding, profile management, navigation, and data integration.

SQL Database Project ⊡
This project is for a non-profit organization called "Alif Foundation" which aims to collect donations from donors via a web-based system and distribute them to deserving clients. The database will store data of clients, admin/staff, and donors, and will include features such as account creation, approval process, payment gateway integration, blood donation management, messaging system, and support services.

Automatic Teller Machine (ATM) ⊡
ATM Management System in C++ is a program that provides users with every aspect that an actual Automated Teller Machine i.e., ATM should have. It is a menu-driven program having ATM functions. It covers all Concepts of C++ Object Oriented Programming (OOP).
