EDUCATION

BS COMPUTER SCIENCE
University of Chakwal
(2020 - 2024)

Currently studying in 6th semester and CGPA is 3.23 out of 4.0

SKILLS

HTML
CSS
PHP
Database
C++
Python
OOP

PROFILE

I am a dedicated computer science student with a passion for technology and problem-solving. Pursuing my degree, I have gained a solid foundation in programming, web development, and data analysis. Through projects and competitions, I showcase my skills and seek opportunities to contribute to cutting-edge innovations in the field.

SEMESTER PROJECTS

WEDDING PLANNER
Using HTML, CSS, JavaScript & PHP

A wedding planner website utilizes HTML, CSS, JavaScript, and PHP to provide functionalities such as user registration, venue search, vendor directory, checklist and planner, budget calculator, and guest management, and blog and inspiration section to help users plan and organize their weddings effectively.

SCHOOL MANAGEMENT SYSTEM
Using MS Access Database

A school management system in MS Access helps track student information, attendance, grades, teacher and staff details, course schedules, library resources, and financial transactions. It enables report card generation, communication between stakeholders, and provides administrative reports and analytics for decision-making.

TIKTOK UI REDESIGN
Using Figma

I redesigned the TikTok UI using Figma, introducing a dislike button, interest bar, video minimization while searching, adding new playlist option and a dark mode. These additions enhance user feedback, personalize content discovery, enable multitasking, and provide a visually appealing experience. Improving TikTok's functionality and aesthetics for a more enjoyable user experience.
