Abdullah Khalid

Data Scientist || Machine Learning Engineer

SUMMARY

Highly motivated and analytical data science student with a strong foundation in statistics and programming. Proficient in Python with experience in data visualization, machine learning, and statistical modeling. Skilled in data analysis and interpretation, with a keen eye for detail and a passion for solving complex problems. Excited to apply my skills and knowledge to a challenging data science internship role and contribute to the success of the team.

EDUCATION

SZABIST
MS Computer Science (3.6 CGPA)
October 2021 – June 2023

FAST-National University of Computer and Emerging Sciences
BS (CS)
2015 - 2019

PROFESSSIONAL CERTIFICATE   (Click to view)

1. IBM Data Science.

ONLINE COURSES   (Click each to view)

1. Supervised Learning with scikit-learn.
2. Unsupervised Learning in Python.
3. Exploring and Analyzing Data in Python.
4. Predictive Analytics in Python.
5. Python Data Science Toolbox.
6. Foundations of Probability in Python.
7. Data Manipulation in SQL.
8. SQL for Joining Data.

MACHINE/DEEP LEARNING MODELS

Linear Regression, Logistic Regression, SVM, Decision Trees, KNN, K-Means-clustering, Naïve Bayes, CNN, RNN, Transformers, LSTM, GRU.

Projects

1. Cotton disease prediction using deep learning.

CONTACT

- +923245228506
- abdullah.khalid96@outlook.com
- Rawalpindi.

SKILLS

Programming:
- Python
- Matlab
- C++

Machine Learning Libraries
- Tensorflow
- PyTorch
- Scikit-learn
- Keras
- Open CV

Data Analysis
- Pandas
- Numpy
- Exploratory Data Analysis
- Predictive Analysis

Data Visualization
- Matplotlib
- Seaborn

RELEVENT COURSES
- Machine Learning
- Deep Learning
- Data Mining
- Probability and Statistics
- Linear Algebra
- Digital Image Processing
